PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with hands-on experience in Java, Spring Boot, REST APIs, and MySQL through a Java Full Stack Development internship and backend-focused projects. Built and deployed applications involving e-commerce, inventory management, real-time monitoring, and database-driven systems. Seeking opportunities to contribute to software development while strengthening backend engineering skills.

EDUCATION

Srinivas University Institute of Engineering and Technology, Mangalore
Bachelor of Technology in Computer Science and Engineering

2022–2026
CGPA: 8.34/10

EXPERIENCE

Tech Vedhu Pvt. Ltd., Bengaluru

2 Months

Java Full Stack Development Trainee (Intern)

- Contributed to an E-Commerce Order and Inventory Management System using Java, Spring Boot, MySQL, HTML, CSS, and JavaScript.
- Developed RESTful APIs with Spring Data JPA/MySQL for product, cart, order, inventory management, and stock validation.

PROJECTS

PulseWatch – Real-Time IoT Device Monitoring & Alert Platform

[Live Demo](#) | [GitHub](#)

Java | Spring Boot | Spring Data JPA | Hibernate | MySQL | REST APIs | WebSocket | JavaScript

- Developed a real-time IoT monitoring platform using Spring Boot to process simulated temperature, humidity, and battery telemetry from multiple devices and persist readings in MySQL.
- Implemented threshold-based alert management with duplicate prevention, consecutive-reading validation, and an OPEN → ACKNOWLEDGED → RESOLVED alert lifecycle.
- Built REST APIs and WebSocket-based real-time updates for device monitoring, telemetry history, alert management, automatic online/offline detection, and continuous server-side telemetry simulation.

StockFlow – E-Commerce & Inventory Management System

[Live Demo](#) | [GitHub](#)

Java | Spring Boot | Spring Data JPA | Hibernate | MySQL | REST APIs | HTML | CSS | JavaScript | JWT

- Developed a full-stack e-commerce and inventory management system using Spring Boot, REST APIs, Spring Data JPA, and MySQL.
- Implemented JWT-based authentication and role-based authorization, with product management, cart, checkout, order processing, inventory validation, and order history.
- Implemented input validation and global exception handling, and deployed the application with Railway using a production MySQL database and environment-based configuration.

TECHNICAL SKILLS

Programming Languages: Java, SQL

Backend: Spring Boot, REST APIs

Frontend: HTML5, CSS3, JavaScript

Database: MySQL

Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA

Core Concepts: Object-Oriented Programming, Database Management Systems

CERTIFICATIONS

- OCI 2025 Certified Generative AI Professional – Oracle University
- AWS Cloud Foundations

ACHIEVEMENTS

- Delivered a Campus to Career seminar for 150+ students covering technology careers and industry trends.
- Led a college team in the Smart India Hackathon and contributed to a technology-driven solution for a real-world problem.
